## How We Work

The core focus of our job is to provide an analytical understanding of the implementation and execution of your strategic agenda. We not only focus on the surface threats and counters to those threats, but also the psychological condition of that working environment, along with past, current and future trends associated with the market.

### Contributing Factors:

- ▶ Fair Risk Assessment
- ▶ Threat Analysis
- ▶ Intervention
- ▶ Exit

## In Addition

ASI will create models for various educational, corporate and groups seeking to understand media, politics, global economics, social and religious differences and how these differences may affect their lives as it may apply to their professional project(s).

## The Benefit

The quick answer to understanding the benefits of our service in one phrase “Knowledge is Power”! If you simply look at the estimated over \$500 Billion Dollars in lost revenue in the United States due to espionage alone, the aforementioned phrase should make a lot of sense. Threat levels across the board poses many unforeseen potential problems for individuals and corporations. Understanding the geographical, FIS, terrorist, industry trends and how they relate to these threats are invaluable. ASI utilizes a wide range of resources to mitigate such risk. We create a secured strategy to assist your desired outcome.
